

Food Waste Governance Model

Board Oversight

Corporate Governance & Social Responsibility Committee

Provides oversight over material ESG issues, including food waste.

→ Frequency: Quarterly

Management Oversight

Executive Leadership Team

Provides strategic input, oversight and approval on ESG issues, including food waste.

→ Frequency: Receives updates from the Senior Vice President Legal and Sustainability as needed

Enablers

Sustainability Team: Owns the development and management of the food waste strategy. Ensures the company is making measurable progress in achieving its goal to reduce food waste 50% by 2025. The sustainability team is supported by cross-functional teams across the organization, who support the tactical execution of programs and projects to achieve the food waste goal.

Initiative-Based Working Groups: Responsible for executing project objectives and deliverables by contributing towards planning of project activities and supporting tactical execution to ensure effective rollout.

Initiative-Based Working Groups:

- Second Harvest and Sustainability Committee (weekly)
- Food Rescue Champions (as needed)

Functional Teams:

- Operations
- Internal & External Communications
- Marketing
- Food Safety
- Customer Experience
